

Expand Your Outdoor Space

Ideal for second-story decks, DrySpace is an under-deck water management system that collects and channels moisture so homeowners can make the most of the space below. It is easily attached to new or existing deck joists, and comes in two colors that lighten and brighten the area under your deck. DrySpace is made of solid extruded vinyl for maximum strength, durability, and weather resistance.

Colors:

DrySpace Benefits:

- Expand your outdoor living space
- Keeps furniture and decor protected from the elements
- Creates a clean, finished appearance
- Opportunity to harvest rainwater from gutter or downspout to save on outdoor watering
- Unlike other products on the market, DrySpace can be installed with new or existing decks

DrySpace Details:

- Compatible with TimberTech® AZEK®, PRO™, and EDGE™ Decking
- Kits available for 12" on-center spans in 12' lengths and 16" on-center spans in 12' and 16' lengths
- Also available in bulk as individual components
- Available in two colors: Bone or White
- 25-Year Limited Warranty for residential applications

DrySpace Components:

DrySpace kits and individual components are available to fit most common deck dimensions. The kits include all of the parts needed for an easy, seamless installation using standard tools.
