

Decorative & Specialty Glass Collection

THERMA TRU[®]
DOORS

Where Home Begins[™]

Welcome home the beauty of glass.

Entryways come to life with Therma-Tru glass.

Choose a Therma-Tru® door system with glass for a beautiful, durable entrance that showcases your high standards for style, quality and craftsmanship. Our wide array of glass designs – from simple to intricate – features selections to complement any home.

- Numerous glass textures, shapes, colors and coming options complement any Therma-Tru door, and provide flexibility to match your personal style.
- We research our glass designs to ensure they are highly rated in consumer preference.
- We have decades of experience and technical know-how in creating quality glass designs that deliver optimal performance.
- Therma-Tru decorative glass is handcrafted and built with all-glass bevels.
- Backed by a lifetime limited warranty when installed in a fiberglass door system for peace of mind. For Classic Craft premium entryways, this warranty can be transferred once to a new homeowner upon sale of the home.
- All interior and exterior glass panels, including Low-E and clear glass, are laminated or tempered for added safety.

Lifetime Limited Warranty

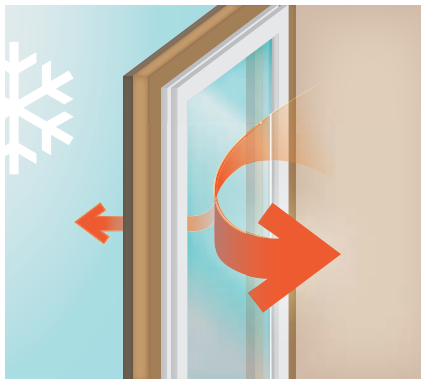

We place a lot of emphasis on achieving the highest level of customer satisfaction. That's why Therma-Tru fiberglass door systems carry a lifetime limited warranty. Should any issues arise during or after installation, we'll address them in a professional, timely manner.

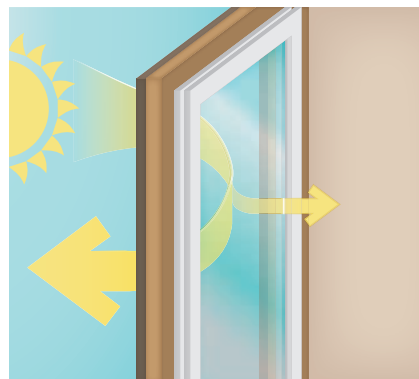

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80 percent of Therma-Tru door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

- Most Therma-Tru decorative glass features triple-pane construction, creating an exceptional thermal barrier.
- Factory-coated Low-E glass comes standard for Classic Craft® and Pulse® Ari. Low-E glass is also available as an option for clear glass in all other door families to deliver exceptional energy efficiency.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass, helping to keep the interior of the home cool.

Quality Testing

Multiple rigorous tests help ensure that our glass meets the toughest quality and performance expectations:

Our Slam Test requires a glass-fitted door to be slammed repeatedly, confirming the durability and performance of the glass and door.

Exposing our glass to weather-like conditions for our Frost Point Test helps verify that moisture and condensation will not get trapped inside.

CLASSIC CRAFT.

Premium Glass

- Close attention to detail produces truly distinctive designs you won't find anywhere else.
- More than 10% wider glass* welcomes more light into the home and creates a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- Most glass options feature triple-pane construction that helps increase energy efficiency.
- All clear glass options are Low-E, providing long-term energy efficiency.
- All sidelites are made with flush-glazed glass for a truly seamless, consistent appearance. The EnLiten™ flush-glazed process integrates the glass into the door providing a high-performance weather seal.
- Any Therma-Tru glass added to a Classic Craft entryway is covered by the same comprehensive transferable lifetime limited warranty. This warranty can be transferred one time to a new owner, should you ever sell your home.

Fiber-Classic®, Smooth-Star®, Profiles™, Traditions, Pulse® Doorglass

Therma-Tru® Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors offer a variety of decorative glass options designed to meet any taste. This selection is inspired by various home and architectural styles, from Victorian to Contemporary. And whether you need greater energy efficiency or privacy, there's an option to suit you.

Great style for any home.

- 15 decorative glass designs offer a look that matches any home and homeowner's style.
- Invite light into the home for a more brilliant interior with EnLiten™ flush-glazed designs featuring 25"-27"-wide glass, or 22"-wide glass in a Lip-lite frame.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.
- A wide variety of glass that meets ENERGY STAR® requirements is available.

Triple-Pane Construction

All triple-pane decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Note: See your Therma-Tru seller or visit thermatru.com for details on ENERGY STAR qualified products.

*See your Therma-Tru seller for a complete list of privacy and textured glass options available for each door style.
 Note: Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size and hand craftsmanship of glass. See your Therma-Tru seller or visit thermatru.com for details on glass privacy ratings and designs. For additional Wind-Borne Debris Region (WBDR) and High-Velocity Hurricane Zone (HVHZ) details, see page 52.

Glass Shapes*

Fiber-Classic® / Smooth-Star® / Profiles. / Traditions / Pulse.

 WBDR / HVHZ Options  WBDR Options

Chinchilla

A free-flowing configuration, presenting quiet lines and curves.

Glass Privacy Rating

Rainglass

An elegantly fashioned glass, featuring ripples of cascading water.

Glass Privacy Rating

Granite

A coarse-grained arrangement with surface detail over the entirety of the glass.

Glass Privacy Rating

Divided Lites

Enhancing beauty with decorative appeal.

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Coordinate with the home's window patterns for a cohesive look and increased curb appeal. Choose from Colonial, Craftsman, Prairie and Modern styles to suit the home's architectural details. Tailor the look with different texture, profile and color choices. Available glass options include elegant privacy and textured, energy-efficient Low-E and clear glass.

For Fiber-Classic, Smooth-Star, Profiles & Traditions

SDL Bar Options

Grained Scrolled
(28.6 mm / 1.125 in.)

Smooth Scrolled
(28.6 mm / 1.125 in.)

Available for EnLiten™ flush-glazed designs only.

NEW Grained Flat
(28.6 mm / 1.125 in.)

Smooth Flat
(28.6 mm / 1.125 in.)

Grained Wide
(88.9 mm / 3.5 in.)

Smooth Wide
(88.9 mm / 3.5 in.)

Grid Patterns*

*See your Therma-Tru seller for a complete list of bars and configurations available for each door collection. Please see divided lite options for Classic Craft collections on pages 11, 22 and 26.

Simulated Divided Lites (SDLs) with Grilles Between Glass (GBGs)

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- SDL bars layered over GBGs create a more authentic divided lite look.
- Wood-grained or smooth textures can be stained or painted any color to complement the door and home.
- We recommend applying SDLs over bronze GBGs with flat bars to achieve the most authentic divided lite look.

Shown with flat bronze GBGs.

Simulated Divided Lites (SDLs)

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- Wood-grained or smooth textures can be stained or painted any color to complement the door and home.

Grilles Between Glass (GBGs)

- Thermally sealed between two panes of tempered glass.
- Get a divided lite look with the convenience of a smooth, easy-to-clean glass surface.
- Choose contour bars for a traditional look or flat bars for contemporary appeal.

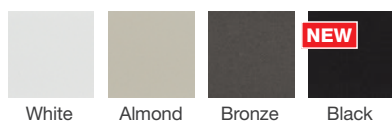

Contour & Flat GBG Options

Color Options

Standard

Special Quote

Removable Wood Grilles

- Snaps on and off the interior pane of tempered glass.
- Easily removable for cleaning.
- Can be stained or painted to complement home décor.

Shown from interior of door.

Fixed Grilles

- Molded as part of the lite frame on the interior and exterior panes of tempered glass.
- Can be stained or painted to complement home décor.

Internal Blinds

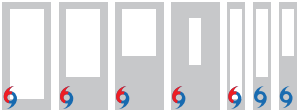

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with a single handle that opens, closes and tilts the blinds.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Privacy bars eliminate visibility into or out of the home, as well as reduce sun glare.
- Choose Low-E glass for exceptional energy efficiency, or standard clear glass.
- EnLiten™ flush-glazed designs and Impact-rated options available.

EnLiten™ Flush-Glazed Designs

For Classic Craft®, Fiber-Classic® & Smooth-Star® Doors & Sidelites

Simplified beauty. Resilient designs. With clean lines and seamless construction, EnLiten flush-glazed designs are perfect for today's homes. Built for long-term performance, these doors and sidelites feature the sleek looks homeowners want and the stylish around-the-home solutions they need.

Front Entry

See the difference.

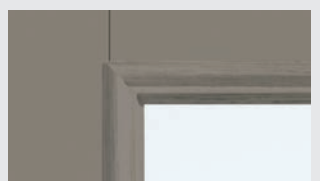

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

Flush-Glazed Glass with Detailed Sticking

Flush-Glazed Glass with Square Sticking

Lip-Lite Frame

Maximum views.

Create an airy, open feeling in the home with larger daylight openings. EnLiten™ flush-glazed designs offer up to a 16% increase in visible glass area than conventional lite frames.

Flush-Glazed Glass

Lip-Lite Frame

*Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.
 **Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval.
 Impact-rated products not available.

Utility Door

Front Entry

Patio Doors

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

Withstands Winds Up to 167 mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

Warranty riders for peace of mind.

EnLiten™ Flush-Glazed Rider for Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

EnLiten™ Flush-Glazed Rider for Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.

Impact-Rated Glass

Therma-Tru's Impact-rated glass meets coastal region codes and regulations,* offering excellent performance in extreme weather conditions while providing added protection.

- Used for products in coastal applications, Therma-Tru measures the resistance of the glass to flying debris by firing a 2" x 4" wood stud at a speed of 34 mph to help prevent damage inside the home from severe weather.
- Available in 14 decorative glass options, 6 privacy and textured designs, as well as internal blinds and clear glass.
- Special laminated glass construction helps protect the interior of the home.
- Tested to meet code requirements in coastal areas, including parts of Florida, Texas, and North and South Carolina.*
- Some glass and door configurations are available for use in High Velocity Hurricane Zone (HVHZ) and Wind-Borne Debris Regions (WBDR).
- Designed to withstand wind forces up to 175 mph (DP-55) for high-wind and coastal applications when paired with an approved Therma-Tru HVHZ Impact-rated door. Able to withstand wind forces up to 167 mph (DP-50) in a Therma-Tru non-HVHZ Impact-rated door.

Available Door Collections

Fiber-Class. Mahogany Collection. | Fiber-Class. Oak Collection. | Smooth-Star. | Profiles & Traditions Steel | Pulse.

*Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru Impact-rated product approval. Some multi-lite door style configurations are approved for WBDR and HVHZ, see your dealer for details. Visit thermatru.com for product approvals. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Bottom: Smooth-Star Door – S8120; Internal Blinds with Impact Frame, Sidelites – S85928SL

Therma-Tru. Impact Lip-Lite Frame

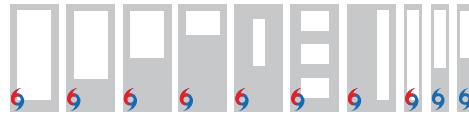

The Therma-Tru Impact Lip-lite frame features durable, paintable aluminum construction with an attractive scrolled profile for a thin, sleek appearance and a screw channel cover to hide unsightly screws.

Impact-Rated Internal Blinds

Features laminated glass construction and a durable, paintable aluminum lite frame with a flat profile aesthetic cover for a simple look.
